

MK-E1005 SERIES

Bench Scale

Bench scale MK-E1005 gives you the tools to improve profitability and efficiency in many weight-based processes across the food, logistics, mining, waste, metals and engineering industries.

- Elegant Design
- Accurate results – every time
- MK-E1005 addresses most weighing needs
- Unbeatable value for money
- Fast and simple to use
- Range of built-in functions

MK-E1005

Bench Scale

Features:

- Improve profitability: Bench scale MK-E1005 gives you the tools to improve profitability and efficiency in many weight-based processes across the food, logistics, mining, waste, metals and engineering industries.
- Accurate results – every time: Results are un mistake able in any conditions. The red LED display also guarantees simpler, more accurate check weighing.
- MK-E1005 addresses most weighing needs. The serial port allows connectivity to PCs, printers, external display and other serial devices.
- Unbeatable value for money: Economical to own and operate, it provides features and functionality beyond what you'd expect of an entry-level indicator.
- Wall mount bracket indicator can also use as wall display.
- Fast and simple to use: Bench scale MK-E1005 offers maximum ease of use
- Configurable trips: Three configurable weight-based trips give you the flexibility to carry out many basic process control routines.
- Range of built-in functions: You can use the indicator to manage a wide range of tasks including piece weighing, check weighing, counting, totalising and peak hold measurement, also for HI ok Low function.
- Less downtime – lower costs: Bench scale MK-E1005 allows rapid installation and configuration, customize weighing unit, easy for conversion the weighing unit.
- High Quality Full Press stainless steel platatter for heavy duty use
- High Resolution Load Cell with overload protection
- Low battery indication for remind the operator to charge the battery when needed
- Rechargeable battery in this indicator is useful for use anywhere and anytime without need to replace the battery all the time.
- Optional: > Fence / Back grill
 - > Isolated 4-20mA Analog Current Output
 - > 2/4 set point
 - > Clock function
 - > RS-232 Modbus data output
 - > External Printer
 - > RS-485
 - > USB interface for save the weighing data

Spesifikasi

Model	MK-E1005 Bench Scale		
Platter size (cm)	42 x 50		
Capacity (kg)	60	150	300
Readability (gr)	10	10	20
Dimension (cm)	68 (L) x 42 (W) x 91 (H)		
Product weight (kg)	15		
Product weight + fence (kg)	16,5
