IS-DLP-110 Series

IS-DLP-110 Series Label Printer

IS-DLP-110 series is a label printing machine or a receipt from the development of the previous IS-DLP-50 series in terms of size. With a larger printer size, the IS-DLP-110 is capable of printing up to 108mm (max size). The IS-DLP-110 series is equipped with the Bluetooth feature (IS-DLP-110B) and supports text and barcode printing. With the IS-DLP-110 series software, label formats can be custom according to the user's wishes. Label design can be done via WINDOWS, LINUX, IOS, ANDROID, MACOS. There are different types of fonts and sizes, and can be rotated as desired. The IS-DLP-110 series has a print density of 203dpi.

Easy Usage

Custom Design Label

Software Design Label Easy to Use

Bluetooth Communication

Wider Label Paper

FEATURES

- Connected to many indicators (CAS, Dini Argeo, MK-Cells, Vibra, Fujitsu, etc.)
- Print a QR Code and Barcode
- Variable settings are more flexible
- The paper size is wider
- Mobile (Bluetooth

ADVANTAGES

- Connected with indicators and scales such as CAS, Dini Argeo, MK-Cells, Vibra, Fujitsu, etc.
- There are additional print QR Codes and Barcodes
- Easy paper installation
- Power cable without adapter (can be directly connected to AC power)
- Label design can be made by the user with easy-to-use software
- Display software for label printer formats is easy to use
- Setting baudrate can be done in software
- Communication with Bluetooth (optional)

SPECIFICATIONS

Model	DLP-110	DLP-110B
Communication Interface	Serial Port (RS-232), USB Port	Serial Port (RS-232), USB Port, Bluetooth
Printing mode	Thermal Printing	
Roll Size	4 inches (no more than 108mm)	
Life of TPH	100 Km	
Power Supply	Built-in	
Voltage Input	100 – 240 V	
Dimension (cm)	20 (L) x 17.5 (W) x 13 (H)	
Dimension (cm)	1.54	

ISO 9001:2015
