

IS-SH-30K Series Checkweigher

This system is widely used in production lines for weighing accuracy and repeatability. The checkweigher monitor manufacturing efficiency, provide real time data on your process, product completeness, and trends also provide feedback data to production lines.

FEATURES

- User-friendly operating system
- Product qualification can be showed in line graphs or bar charts
- Multi reject methods; with alarm and stop function supported
- Product weight when static and dynamic can be adjusted.
- Login user manage password protect all data
- 100 kinds of products can be stored

OPTIONAL

- USB Port
- RS485 Port / Inkjet Printer Communication Interface
- Sound-Light Alarm

SPECIFICATION

| Type | IS-SH-30K |
|-------------------|-------------------------------------|
| Weighing Range | 0.05-30Kg |
| Scale Division | 1g |
| Accuracy | $\pm 5/10g$ (depend on the product) |
| Product Size | L:550 W:450 H:3-400 (mm) |
| Weighing speed | 40 pcs/min |
| Belt speed | 0-40 m/min |
| Belt width | 450 mm |
| Power Supply | AC-110/220V $\pm 10\%$ 50Hz |
| Power | ~100W |
| Main Material | SUS 304 Stainless Steel |
| Weight of Machine | ~100 kg |

DIMENSIONS

- Unit : mm
